### RADIO CONTOUR OVERLAP (DUOPOLY) RULE

The principal community service contour of the new FM station at Channel 290C2, Round Rock, Texas, overlaps the principal community service contours of radio stations which are attributable to R. Steven Hicks ("Hicks"), as described below.

This application seeks the grant of a new FM station at Channel 290C2, Round Rock, Texas, to Hicks. Hicks is the Chief Executive Officer of Capstar Radio Broadcasting Partners, Inc., which wholly-owns GulfStar Communications, Inc. ("GulfStar"). Currently pending is an application by GulfStar seeking Commission consent to the assignment of stations KVET(AM), KVET-FM, and KASE(FM) in Austin, Texas, from Butler Broadcasting Company, Ltd. ("Butler") to GulfStar. See BAL-980107EC; BALH-980107ED; BAPLH-980107EE. The contours of the construction permit for the new FM station at Channel 290C2 overlap with the contours of KVET(AM), KVET-FM, and KASE(FM) such that the grant of this application will result in one new radio station combination involving stations with overlapping principal community contours in the Austin, Texas market. Additionally, while the application for the assignment of KVET(AM), KVET-FM, and KASE(FM) is pending, GulfStar and Butler have entered into a Local Marketing Agreement whereby GulfStar will serve as the time broker for these three stations currently licensed to Butler.

Under Section 73.3555(a), in radio markets with between 15 and 29 stations, one owner may hold up to six stations, no more than four of which are in the same service. An engineering study attached hereto as **Appendix 1** demonstrates that the

new radio station combination at Austin, Texas, which involves the new FM station at Channel 290C2 and Butlers' KVET(AM), KVET-FM, and KASE(FM), complies with Section 73.3555(a) because there are 25 commercial radio stations whose principal community contours overlap with the composite contours of the stations in each market and Hicks will have an attributable interest in only four stations in the market (1 AM and 3 FM).

# **ENGINEERING STATEMENT:**

MULTIPLE OWNERSHIP STUDY FOR ROUND ROCK, TX 290C2

FEBRUARY 1998

#### MULTIPLE OWNERSHIP SERVICE CONTOUR ANALYSIS

The attached map of principal community service contours was prepared in accordance with the technical standards of the Rules and Regulations of the Federal Communications Commission.

The 70 dBu contours of FM stations were determined from the technical data contained in the most recent edition of the FCC FM Database. The listed antenna height above average terrain was used together with topographic data obtained from the digitized 30 second or 3 second database.

The 5 mv/m daytime contours of AM stations were determined from the technical data contained in the most recent edition of the FCC AM Database. The listed antenna parameter information was used together with a digitized version of the FCC M-3 or Region II ground conductivity database.

The service contours were plotted using correct map projection mathematics. Those stations whose transmitter sites are within the respective principal community service contours of the stations proposed to be commonly owned have only the sites rather than their contours shown. All contours and enclosed transmitter site locations have been labeled. A list of all stations considered is included with this statement. This exhibit demonstrates at least the minimum number of stations necessary to demonstrate compliance with the rules concerning radio multiple ownership.

February 11, 1998

Hatfield & Dawson Consulting Engineers

#### **AM MIGRATION PETITIONS**

GulfStar Communications, Inc., an entity in which R. Steven Hicks ("Hicks") holds an attributable interest, is the proposed assignee of KSFA(AM), Nacogdoches, Texas, is the approved assignee of KBLU(AM), Yuma, Arizona, and is the parent of the licensee of KWHN(AM), Ft. Smith, Arkansas. All three stations are on the Commission's list of stations eligible to migrate to the AM band.

Furthermore, through various subsidiaries, Capstar Radio Broadcasting Partners, Inc., an entity for which Hicks serves as the Chief Executive Officer, owns the following radio stations:

| WNLK(AM)  | Norwalk, Connecticut  |
|-----------|-----------------------|
| WJBR (AM) | Wilmington, Delaware  |
| WTCR(AM)  | Kenova, West Virginia |

Although each of these stations has filed a petition to migrate to the AM expanded band, none was selected as a station eligible to apply for the AM expanded band.

## **PENDING APPLICATIONS**

The applicant, R. Steven Hicks ("Hicks") serves as Chief Executive Officer of Capstar Radio Broadcasting Partners, Inc. ("Capstar"). Capstar, through numerous intermediary subsidiaries, holds many broadcast licenses. See Exhibit C, Figure 1. Additionally, Hicks will serve as President, Chief Executive Officer, and a Director of SBI Holding Corporation, proposed transferee of SFX Broadcasting, Inc. ("SFX"). The attached appendices include:

- Appendix 1, a list of all pending acquisitions by Capstar entities;
- Appendix 2, a list of all pending acquisitions that have been granted by the Commission, but have not yet closed; and
- Appendix 3, a list of all other pending applications (i.e. modifications, renewals, etc.) for stations licensed to entities attributable to Capstar.
